Baking cases

Siluett manufacture a wide range of baking cases in greaseproof and glassine paper - white, decorated or with your own design.
Cases of greaseproof material will fullfil all demands when it comes to releasing the final product from the cases, stability of the case, heat- and grease resistance. The cases are available in serveral paper qualities, from 40 to 70 gsm. 50-55 gsm is our standard paper quality unless otherwise stated.
The glassine cases are not suitable for the oven and are therefore best sutied for presentation; they will put any pastry or confectionery in the spotlight and create an impression of quality and elegance.
The cases are manufactured in 40 gsm glassine paper.

Siluett of Sweden

Personalized products

Printed cases and under cake boards are a nice and cost-effective way to make your company competitive. It is also getting more and more usual as it is simple and price-worthy. Send us your business card, a box for cakes, a paper bag or anything else showing your logotype and we will make a suggestion that will fit you and your company's profile. If you need help to create your own unique design on your cases we are always here to assist and guide you – nothing is too big or too small for us.

Cases with your own unique design. Minimum order quantity 25,000 cases.
With printing in up to four colours you will have almost unlimited possibilities for your
own colours, logotype and patterns.

Cases with text only. Minimum order quantity 12,000 cases. You can choose from a selection of bottom colours, print colours and text types to create your own case.

Under cake boards. When it comes to under cake boards, the minimum order quantity is only 1.000 pieces per size.

Presentation paper. Confectionery cases, bakery and wrapping paper in glassine material for food presentation. Glassine paper is a resistant material which promotes high hygiene level for baking and catering. The material is some varieties of shape and size, enriched with beautiful color, designs and shapes which will enhance the presentation of the food.
Glassine material suits very well for pralines, cakes, delicate confections, sandwich, and etc. The glassine paper should not be used in the oven.

Under cake board

A beautiful cake deserves a beautiful presentation. That is why we offer our laminated and foliated under cake boards in different sizes and colours, to promote your product and to suit all occasions.
An under cake board should however not only be beautiful, but also serve a more pratical purpose. It should be a barrier towards grease and dampness, and should not discolour the cake or vice versa. These are demands that our laminated and foilated under cake boards can fulfil.

These baking cases are made from white greaseproof paper. They have a raw edge lip around the top with a semi curl to give improved rigidity. They are ideal for muffins.

Cardboard cups

An environmentally friendly alternative to aluminium cups. These cardboard cups have good release properties and are very stable. They are possible to freeze and have good resistance to oven heat (certified for 205°C in 30 min). Can also be used in microwave ovens.
